COVID-19: USI25 Alumni&Alumnae
Reunion Protection Plan

Friday 3 and Saturday, 4 September 2021

USI Alumni Reunion protection plan meets the health provisions recommended by the Federal Office of Health to protect and safeguard visitors and staff and reduce the risk of infection.

Safety distance, masks and tracking
- Participants can only enter the event premises after registering and sharing tracking data.
- Entrance to the event is restricted to a maximum of 130 visitors to ensure social distance throughout the premises. The use of masks is compulsory indoors.
- Participants are also required to wear masks outdoors when in contact with the public and when the minimum safety distance of 1.5 between people cannot be observed.
- The University will also provide masks if needed.
- A social distance of 1.5 meters shall also be kept to access the registration desk.
- Indoors spaces of the east campus (multi-purpose hall and study rooms) are only occupied to 50% of the customarily permitted capacity, including distance measures between participants.

Hands and room sanitation
- Hand sanitisers are made available to all participants and staff.
- In a social context such as the USI Alumni Reunion event, participants are asked to sanitise their hands and keep social distance.
- The event staff is responsible for sanitising the surfaces and equipment (microphones, etc.). Sanitiser, disposable paper and trashcans are provided.
- Surfaces and chairs are disinfected regularly.
- Indoor areas used for the event are aired throughout the event.
- The coffee and aperitif area is set up outdoors (inner courtyard), and participants may help themselves after sanitising their hands. The special provisions of the catering sector apply.

1 Personal data will be kept confidential. All tracking data will not be used for any other purpose and will only be stored for 14 days after which it will be deleted or, in the case of internal data, no longer associated with such purposes. The relevant provisions of the Data Protection Act (LPDP) of 9 March 1987 apply. Moreover, the contact details of suspected infected persons must be forwarded to the competent cantonal authorities, solely at their request, for identification and notification purposes.
Persons at risk

- Participants who belong to risk categories may only participate with an FFP2 mask.
- It is the individual responsibility of the participants to assess the risk of possible contagion during the event. Therefore, the measures taken cannot guarantee that there is no risk of infection.

Sick people

- In all situations, the following rule applies: people who are ill or show symptoms of illness (fever, cough, sore throat, diarrhoea, cold, shortness of breath, muscle aches, sudden loss of sense of smell and/or taste, etc.) shall stay at home.

Validity of the protection plan

- This protection plan is in line with the official protection provisions in force and the COVID-19 protection provisions of USI. It will be updated according to changes in the health situation and any new recommendations.
- The provisions are valid from 26 June 2021 until further notice.

Information and responsibility

- The following protection plan can be viewed on the USI website. In addition, the recommended protection measures are also posted on campus.
- Each participant is responsible for complying with the measures in this protection plan. Staff on-site will ensure that the provisions are implemented.
