

<b>2025</b>	
13.10	Experimental Hematology (group Davide Rossi) – IOR Refresher Security
27.10	Microbiome Immune Interactions – Samuel Nobs – IRB
03.11	Molecular Immunology (group Silvia Monticelli) – IRB Cancer Immunotherapy (group Arianna Calcinotto) – IOR
10.11	Systems Immunology (group Roger Geiger) – IRB Infections and Immunity (group Santiago Fernandez-Gonzalez) – IRB
17.11	Computational Structural Biology (group Andrea Cavalli) – IRB Regenerative Medicine Technologies (group Matteo Moretti) – IRT
24.11	Immune mechanisms (group Greta Guarda) – IRB Experimental Therapeutics (group Carlo Catapano) – IOR
01.12	Surgical Research (group Giandomenica Iezzi) – IRT Structural Biology (group Luca Varani) – IRB
<b>2026</b>	
12.01	Recombination Mechanisms (group Petr Cejka) – IRB Stem Cells and Cancer (group Arianna Baggolini) – IOR
19.01	Molecular Oncology (group Andrea Alimonti) – IOR Immunobiology (group Caroline Junqueira) – IRB
26.01	Immunology and Infectious Diseases (group Davide Robbiani) – IRB Prostate Cancer Biology (group Giuseppina Carbone) – IOR
02.02	Lymphoma Genomics (group Francesco Bertoni) – IOR Protein Folding and Quality Control (group Maurizio Molinari) – IRB
16.02	Recombination Mechanisms (group Petr Cejka) – IRB Experimental Hematology (group Davide Rossi) – IOR
23.02	Immunology and Infectious Diseases (group Davide Robbiani) – IRB Cardiovascular Theranostics (group Lucio Barile) – IRT
02.03	Molecular Oncology (group Andrea Alimonti) – IOR Systems Immunology (group Roger Geiger) – IRB
09.03	Microbiome Immune Interactions (group Samuel Nobs) – IRB Experimental Therapeutics (group Carlo Catapano) – IOR
16.03	Lymphoma Genomics (group Francesco Bertoni) – IOR Cellular Immunology (group Federica Sallusto) – IRB
23.03	Infections and Immunity (group Santiago Fernandez-Gonzalez) – IRB Lymphoma Genomics (group Francesco Bertoni) – IOR
30.03	Cancer Immunotherapy (group Arianna Calcinotto) – IOR Chemokines in immunity (group Mariagrazia Ugucconi) – IRB
13.04	Stem Cells and Cancer (group Arianna Baggolini) – IOR Structural Biology (group Luca Varani) – IRB
20.04	Immune mechanisms (group Greta Guarda) – IRB Neurodegenerative Diseases (group Giorgia Melli) – IRT
27.04	Molecular Immunology (group Silvia Monticelli) – IRB Functional Cancer Genomics (group Jean-Philippe Theurillat) – IOR
04.05	Experimental Hematology (group Davide Rossi) – IOR Protein Folding and Quality Control (group Maurizio Molinari) – IRB
18.05	Infections and Immunity (group Santiago Fernandez-Gonzalez) – IRB Cardiovascular Theranostics (group Lucio Barile) – IRT
01.06	Systems Immunology (group Roger Geiger) – IRB Stem Cells and Cancer (group Arianna Baggolini) – IOR
08.06	Molecular Oncology (group Andrea Alimonti) – IOR Recombination Mechanisms (group Petr Cejka) – IRB
15.06	Cellular Immunology (group Federica Sallusto) – IRB Refresher Security

## Monday Noon Discussions

Bios+ Seminar Room

Coordination: Mariagrazia Ugucconi (IRB) and Jean-Philippe Theurillat (IOR).

If you are unable to present at a given date, please find a substitute who is willing to switch with you, and then let the coordinators know.

Please, send the name of the presenting person two weeks before to Elisabetta Genovese (Elisabetta.genovese@irb.usi.ch).
