### **Mattia Bertoli – Master in International Tourism – Svizzera Turismo**

“I decided to volunteer as a Student Angel mainly for two reasons: for a chance to establish direct contact and an employment opportunity with a company I was strongly interested in, and second to contribute in a moment of change due to the pandemic, to the success of an event that I know and appreciate.”

### **Alessandro Covini – Master in Media Management – Radiotelevisione Svizzera italiana (RSI)**

“I decided to volunteer as a Student Angel for a chance to follow up-close the company I was interested in and for which I was actually chosen. In addition, I was curious to know the possible future challenges and opportunities within the company itself, in order to apply for a possible curricular internship.”

### **Giulia Testa – Bachelor in Economia – EF Education First**

“I really liked the presentations I took part in. They were very well organised and structured. Compared to other years (on campus), I found the event to be a lot more useful especially for Angels and their companies.”

### **Alessia Lazzari – Master in Management – Deutsche Bank**

““ really enjoyed having direct contact with USI Alumni, to learn about their vision of the future and their experience in looking for a job that lived up to their qualifications.”
