1. Each Master's programme defines the specific objectives and methods of an internship or other equivalent activity, with the support of the Career Service of the University.

2. The Faculty, in compliance with the relevant Directives of the Università della Svizzera italiana, may regulate the characteristics
of the field project with separate provisions.

3. For study semesters abroad at another University, the choice of institution and study programme are to be approved by the Director of the Master. 4. Failure to comply with this deadline will result in the student’s expulsion from the Faculty.

Art. 22
Master’s thesis: assessment

1. The commission appointed to evaluate the Master’s thesis is made up of the supervisor, a possible co-supervisor and a Faculty lecturer or senior assistant (post-doc), with the role of co-examiner. Chapter IV
Common provisions

Art. 23
Enrolment

All students must enrol for the courses they wish to attend at the beginning of each semester.

Art. 24
Examinations

1. Examinations are based on the course subjects that make up the Study Plan.

2. An examination is a test designed to assess a candidate’s knowledge and skills.

3. The lecturer of each course is responsible for assessing the knowledge and skills acquired by a student during the lectures and seminars of the most recently held course. Possible justified exceptions to this principle are subject to the approval of the Study Delegate for Bachelor’s degrees and the Director of the Master in question for Master’s degrees. If a student is unable to take an examination of one of the most recently held or one of the previous courses, the Study Delegate for Bachelor’s degrees and the Director of the Master for the Master’s degrees will indicate the courses to attend and the related examinations to be taken in order to complete the related study programme.

4. Each lecturer shall inform the Faculty Dean of his/her assessment method, to ensure that it is compatible with the present Regulations and other Faculty provisions.

Art. 25
Examination sessions

1. There are two examination sessions for each course:
   • an ordinary or intermediate session;
   • a supplementary (or recovery) session.

2. An ordinary session is held at the end of each semester (winter session and summer session). A supplementary session takes place prior to the start of the autumn session (autumn session). The ordinary session may be replaced by an intermediate session. The ordinary and intermediate sessions comprises examinations on all the courses in the semester that precedes the session. The supplementary session comprises those examinations for which there are candidates registered.

   • the Study Delegate;
   • the Examiners;
   • the Exam Commissions;
   • the Complaints Commission.

3. Course professors are also the designated Examiners for their respective courses. Should an impediment occur, the Study Delegate will appoint a replacement.

4. For written examinations, the Examiner may be replaced by one or several assistants or Faculty professors, appointed by the Faculty Dean. For oral examinations, the main Examiner must always be accompanied by at least one assistant or another Faculty lecturer appointed by the Dean, who make up the Exam Commission.

6. The Complaints Commission is made up of three members, elected for one year, and can be re-elected. Two members belong to the academic body, one of whom takes the role of chairperson. The third member is from the student body. In the case of a tied vote, the chairperson has the final decision. If any member of the Commission is challenged, the Dean will nominate a replacement.

7. The Complaints Commission carries out its duties autonomously. For this purpose, it may implement its own organisational regulations. The Complaints Commission reports on its activities to the Faculty Council at least once a year.

Art. 27

2. Students are to enrol with the Dean’s office no later than the closing date and in the format required by the Dean.

3. The Dean’s office is responsible for checking the validity of the enrolment and, if need be, informing students of any impediment. Each student is nonetheless personally responsible for meeting the official deadlines indicated in the Study Plan and in the present Regulations.

A student is entitled to withdraw from an examination (including those prepared to recover a shortfall in ECTS credits) up to 5 days (including working days and holidays) before the date scheduled for that examination. The notification must be made in writing (online, via email or post) and addressed to the Dean's office. If notification is by post, the date is that of the postmark; otherwise the date of the electronic transmission. In this case, the enrolment is cancelled and treated as if it had never been made.
2. Should any examinations have been taken before the notification of withdrawal, the grades already obtained in the same session stand, regardless of the result (positive or negative).
3. A student who fails to attend an examination or leaves the hall while the examination is in progress without a valid reason is considered to have failed that examination. This examination is counted among the maximum number of attempts permitted for passing the exam, as prescribed in the present Regulations.
4. For a justification to be considered it must be presented by the student in writing to the Dean's office no later than ten (10) days from the examination. The motive for the absence must be serious (major health problems or other serious impediments, serious illness or death of a close relative) and the student must be able to produce proper evidence. The Study Delegate is entitled to investigate the justification or medical certificate further, and, if necessary, consult a trusted doctor.

International certificates required to bridge any language requirements prescribed by the study plan may be uploaded onto the special IT system made available by the Faculty throughout the entire academic year. In any case the Faculty reserves the right to request the student to submit the original certificate.
3. For the language courses prescribed by study plans and for which an exemption may be requested through the presentation of an internationally-recognised certificate, the certificate can be uploaded onto the special IT system made available by the Faculty. The certificate may be uploaded throughout the entire academic year with the exception of the period between the beginning and end of each ordinary and supplementary exam session. In any case the Faculty reserves the right to request the student to submit the original certificate.

Art. 31 Accreditation (recognition of examinations)

2. At the beginning of the course each professor must inform both the Dean's office and the students of the formula used to calculate the overall grade.
3. If an examination consists of the submission of one or several papers, the lecturer and/or Director of the Bachelor or Master will inform the Dean and the students of the official hand-over date(s) of the paper(s).

Art. 32 Evaluation system

3. Examinations and term papers that are not accepted or assigned a mark lower than 6 (fail) must be repeated. In the case of repeated exams and resubmitted papers, the latest result is the one that counts.
4. To earn the ECTS points relating to each course, the student must pass the relative examination with a grade equal or to higher than 6 and 5. If an examination consists of the submission of one or several papers, the lecturer and/or Director of the Bachelor or Master will inform the Dean and the students of the official hand-over date(s) of the paper(s).

Art. 33 Final grade
1. The final grade assigned to a degree that the Faculty awards at the end of the Bachelor’s or the Master’s programme is calculated as the weighted average of all the marks obtained in evaluations of course subjects and of the degree dissertation or the Master’s thesis, weighted according to ECTS points, rounded up to the first decimal digit. The Master’s Transcript states the following:
   • summa cum laude for a final average mark higher than 9;

Art. 33 Final grade
1. The final grade assigned to a degree that the Faculty awards at the end of the Bachelor’s or the Master’s programme is calculated as the weighted average of all the marks obtained in evaluations of course subjects and of the degree dissertation or the Master’s thesis, weighted according to ECTS points, rounded up to the first decimal digit. The Master’s Transcript states the following:
   • summa cum laude for a final average mark higher than 9;
   • magna cum laude for a final average mark of between 8 and 9 (8 and 9 included);
   • cum laude for a final average mark of between 7 and 8 (7 and 8 included).
2. Binary evaluations do not affect the calculation, and those obtained during internships and study semesters abroad do not affect the calculation of the average.

Art. 35
Access to exam papers

The Faculty grants students access to their exam papers for a period of 30 days after the grades are disclosed.

Art. 36
Misconduct

If, during an examination, reasonable evidence is found to suspect that a student is cheating, or the student is caught in the act, the Examiners and/or exam assistants draft a report for the attention of the Study Delegate who, if appropriate, launches a disciplinary investigation.

Art. 37
Disciplinary measures

1. The Faculty may apply sanctions, through the disciplinary measures set out below, on the following instances of student misconduct:
   - insubordination and breach of the University’s internal order;
   - cheating during an examination;
   - plagiarism in the process of preparing a written paper (term paper, internship report or project, final dissertation and Master’s thesis, etc.);
   - a student is guilty of plagiarism when he/she submits a piece of written work containing one or more portions copied or closely paraphrased from an unidentified original, without acknowledging the source or formally quoting or when he/she passes off and/or claims research findings obtained or published by third parties as his/her own.

2. In all the cases covered under the first paragraph of this article, the Faculty Dean, once an investigation by the Study Delegate and the Dean him/herself has been completed and in full respect of the student’s right to be heard, may deliver the following sanctions (also cumulatively), taking into account the degree of responsibility of the student and the gravity of the offence:
   - the student is admonished (written reprimand);
   - the offending examination or term paper is declared void; in this case the examination or term paper is registered with a ‘1’ grade, the lowest fail result. If the paper is an integral part of an examination, the entire exam will be declared void.
   - the student is suspended for one or more examination sessions, class attendance being nonetheless permitted;
   - the student is denied the right to acquire any ECTS credits on the basis of term papers for the duration of one or more semesters;
   - the student is suspended for one or more semesters, and consequently prevented from sitting any examinations relating to the courses held during that period;
   - all the examinations taken by the student during the session in which he/she was caught cheating are annulled; therefore, all such examinations are assigned the minimum grade (‘1’) and recorded as failed.

3. This does not rule out the exercise of authority by other official university bodies, who may decide to expel the student or to inform other authorities of the events.

4. The student has the right to appeal against the Dean’s decision by submitting his/her grievance to the Faculty Council in whose name the Complaints Commission takes a final decision.

The student must inform the Faculty Dean of his/her intention to withdraw from his/her studies in writing. The notification can be submitted within the time limits established in the Regulations for Admission and Matriculation of the Università della Svizzera Italiana.

Art. 39
Recognition of previous academic studies
1. Only the examinations passed during previous academic studies taken no longer than ten years prior to the start of the new study semester are recognised.
2. If the student has been assigned a definitive fail in a Faculty of USI, or in another Swiss or foreign university or institute of higher education, all the results previously achieved in the study programme in which the student has been assigned a definitive fail, including those that the student has passed, are not taken into consideration in the study plans of the Faculty of Communication, Culture and Society.
3. The student may enrol during one of the three years of the Bachelor’s programme or during one of the two years of the Master’s programme, depending on the number of ECTS points to be acquired in order to complete the study programme. The student follows the study plan for the year in which he/she has been admitted.

Art. 40
Recognition of studies undertaken in other Faculties
1. The Faculty may accept the enrolment of students who have studied at another Faculty after the first semester of the Bachelor’s or Master’s programme, on the basis of the equivalence of the courses attended and passed at the given Faculty with the courses prescribed in the study plan of the Faculty of Communication, Culture and Society, following the principles of mobility and fair and equal treatment.
2. For students coming from another programme, the Director of the Bachelor for each Bachelor’s degree and the Director of the Master for each Master’s degree defines the equivalences and the relative assessment of effective equivalence on the basis of the knowledge and skills acquired, the relevant level of studies, and recommends a personalised study plan.

Art. 41
Application for equivalence
1. Students may apply for equivalence for the examinations passed at another university or institute of higher education prior or after matriculation at the Faculty of Communication, Culture and Society, but at the latest within one semester from the start of the chosen degree programme. The application should include the following documents:
   - exam certificate (including the name of the course passed, the grades achieved, ECTS credits awarded and the date the exam was passed);
   - course descriptions;
   - ex-matriculation certificate (in the case of transfer from another university).
2. Students may apply for equivalence for previous internships at firms and institutions prior or after matriculation at the Faculty of Communication, Culture and Society, but at the latest within one semester from the start of the chosen degree programme. The application must contain the employment certificate with a detailed description of the work carried out.
3. The studies and employment for which equivalence is acknowledged are validated in ECTS credits, with any related assessments for the studies undertaken.
4. The studies and employment undertaken that have already contributed to the awarding of a diploma cannot be acknowledged for the purposes of the awarding of a new diploma.
5. The Director of the Bachelor for each Bachelor’s programme and the Director of the Master for each Master’s programme may request the submission of further original documents at any time.

Art. 42
Re-admission
1. The student that withdraws from his/her studies at the Faculty of Communication, Culture and Society may submit a new enrolment application to the Faculty according to the methods established in the Regulations for Admission and Matriculation of the Università della Svizzera italiana. Depending on the circumstances, the Director of the Bachelor for each Bachelor’s programme and the Director of the Master for each Master’s programme will assess which exams previously passed can be accredited.
2. The student may enrol during one of the three years of the Bachelor’s programme or during one of the two years of the Master’s programme, depending on the number of ECTS points to be acquired in order to complete the study programme. The student follows the study plan for the year in which he/she has been admitted.
1. A student may be granted a leave of absence on grounds of maternity, military or civil service, serious illness or other circumstances that, at the Dean’s discretion, represent a major impediment to the smooth progress of the applicant’s studies. Generally speaking, a leave of absence may not exceed two semesters. Any exceptions are subject to the authorisation of the Dean.

2. Students on leave remain enrolled at the University by paying a reduced administrative fee, in accordance with the Regulations for Admission and Matriculation of the Università della Svizzera italiana, and retain the benefits connected with student status though excluded from attending classes or any other degree-related activity.

3. Generally, a student who is absent on leave has no right to take examinations, hand in a dissertation or defend a Master’s thesis. Any exceptions are subject to the authorisation of the Dean.

4. A student who is on leave during the autumn semester may not enrol for the winter examination session. A student who is on leave during the spring semester may not enrol for the summer examination session. Renewal of enrolment for the following autumn semester entitles the student to sit examinations in the autumn session for the courses attended prior to the leave of absence.

5. Students absent on grounds of maternity, or military or civil service or for grave and medically-justified illness, are nonetheless allowed to sit examinations on course units that they have previously attended.

Art. 44 Tutoring

1. On request, a student may be assigned a tutor to help him/her with the organisation of his/her examinations, in particular with advice on how to best prepare for examinations and work out a schedule, and assistance with a range of personal choices required by the study plan.

2. The Study Delegate is responsible for designating the tutor from among the Faculty teaching staff and senior assistants (post-doc).

3. The tasks specific to the tutoring role will be defined by the Faculty and made public online.
Chapter VIII
Final provisions

Art. 45  Grievances and appeals

1. Any decision that affects a student’s rights and expectations, including examination results, must be notified in writing. In exceptional circumstances the Study Delegate can derogate from these Regulations, but only if it is in favour of the student.

2. The student has the right to lodge an appeal against these decisions, taken in particular by the Dean, the Study Delegate, the Directors of the Bachelor and the Master, individual professors, exam commissions, committees or services, and so elicit a resolution from the Faculty, in whose name the Complaints Commission decides. The appeal has a suspensive effect on the decision.

3. Under the University’s Statute, a student may appeal against a Faculty decision by lodging a formal complaint to the Cantonal Administrative Court, Via Pretorio 16, 6901 Lugano. The decisions of the Complaints Commission are enforceable immediately.

4. Formal complaints and appeals must be filed within 30 days of receipt of the notification, and must be clearly substantiated in writing. The procedure is analogous to the administrative procedure of the State and Canton of Ticino, except for interruptions due to legal holidays.

Art. 46  Amendments

1. The present Regulations or single provisions thereof may be amended by the Faculty Council only by the absolute majority of its members. Each amendment proposal must then be approved by the Academic Senate of the Università della Svizzera italiana.

2. Each amendment proposal must be put on the agenda and communicated to the members of the Faculty Council at least 10 days before its next meeting.

Art. 47  Validity

The present Regulations come into force on 1 September 2020 and replace those issued on 2 July 2008. The present Regulations apply in their entirety to all students matriculating in and after the 2020/2021 academic year. The Regulations of 2 July 2008 will be applicable to students matriculating prior to the 2020/2021 academic year.
