**Research Assistant position available in the Tumor Biology and  
Experimental Therapeutics group at the Institute of Oncology Research  
(IOR)**

[www.ior.usi.ch](http://www.ior.usi.ch)

---

A **Research Assistant** position is available in the **Tumor Biology and Experimental Therapeutics** group directed by Prof. Carlo V. Catapano at the Institute of Oncology Research (IOR).

The IOR in Bellinzona, Switzerland, is a leading institution for basic and translational cancer research in Switzerland with state-of-the-art equipment and core facilities. The Institute has close collaborations and partnerships with the Oncology Institute of Southern Switzerland (IOSI) and is affiliated to the Università della Svizzera italiana.

We are looking for highly motivated and enthusiastic candidates interested in working in a very active environment at competitive projects in the area of cancer biology and therapy. The successful candidate will work in a highly collaborative work environment and taking advantage of the group's multi-disciplinary approach.

**Main projects** deal with:

- Transcriptional, epigenetic and metabolic reprogramming in human cancers.
- Mitochondrial plasticity and metabolism in cancer cells.
- Novel therapeutic strategies and targeted drug delivery.
- In vivo modeling of tumor-initiating and tumor-propagating stem-like cancer cells.

**Candidate's qualifications:**

- Degree in biology, biotechnology or related disciplines
- Working experience with mouse models is required
- Working experience in cell biology and molecular biology is desirable
- Good knowledge of English
- Good organizational, interpersonal and communication skills

Send application by email to [humanresources@ior.usi.ch](mailto:humanresources@ior.usi.ch)  
(subject line: **CC\_RA\_2021**) including:

- Curriculum vitae with training, working experience and publications
- List of two references with their postal and email address

**Deadline for application:**

June 1<sup>st</sup>, 2021

**Starting date:**

Immediately available
