Technician position

The Functional Cancer Genomics group directed by Prof. J.P. Theurillat at the Institute of Oncology Research in Bellinzona, Switzerland is seeking a Technician.

The Functional Cancer Genomics group directed by Prof. J.P. Theurillat at the Institute of Oncology Research in Bellinzona, Switzerland (http://www.ior.iosi.ch) is seeking a part- or full-time technician in cancer research.

The successful candidate will work as part of an international team that is dedicated to understanding how new driver alterations culled from cancer genome characterization studies promote tumorigenesis, and how gathered insights can be exploited to develop precision medicines. The position offers excellent scientific opportunities in a highly stimulating and interdisciplinary environment involving close interactions between medical and basic scientists. Investigations range from projects related to:

- Patient-derived xenograft (PDX) mouse models to study the biology of prostate cancer
- Determining anti-tumor activity of novel drug-like compounds in vivo

Candidate requirements

- Working experience with mouse models (tumor xenograft models or genetically-engineered mice): breeding setup and grafting of tumors, drug application, small surgery (castration), tissue preservation
- Working experience in cell culture models and basic molecular biology desirable
- MSc in biology

The position is located at the Institute of Oncology Research, a leading institution in basic and translational cancer research in Southern Switzerland with state-of-the-art core facilities and competitive salaries. The highly collaborative lab has ongoing projects with groups at Harvard, MIT and ETHZ, among others.

Position available immediately.

Applicants should submit curriculum vitae, cover letter and contact info for 2 references to jean-philippe.theurillat@ior.usi.ch with reference JPT_Technician2021.

For additional inquiry regarding this job please contact Prof. Jean-Philippe Theurillat via email: jean-philippe.theurillat@ior.usi.ch.
