## PhD position in Genome Stability (Biochemistry, Cancer Biology) (Prof. Cejka)

---

The Cejka laboratory ([link](#)), located at the Institute for Research in Biomedicine (IRB, [link](#)) affiliated to the Università della Svizzera italiana (USI) in Bellinzona, Switzerland, is looking for a candidate for a PhD position. The laboratory is funded by an ERC advanced grant and grants from the Swiss National Science Foundation. The position will be fully funded. We plan to investigate mechanisms of DNA repair pathways using a biochemical approach. Please consult our website and publications to learn about our research interests. Details of the research project will be determined upon discussion with the candidate and mutual interest. Candidates should have a degree in Molecular or Cellular Biology, Biochemistry or a related discipline.

**Deadline for applications: May 15, 2022**, but please apply as soon as possible. Preferred start date Summer 2022.

Interested candidates should send a cover letter, their Curriculum Vitae and complete contact information for at least three referees to [petr.cejka@irb.usi.ch](mailto:petr.cejka@irb.usi.ch).
