

WinSCP

The image shows the WinSCP Login dialog box. It has a title bar with a 'Login' icon and the text 'Login'. The main area is divided into two sections. On the left is a 'New Site' list, which is currently empty. On the right is the 'Session' configuration area. This area contains several fields: 'File protocol' set to 'FTP', 'Encryption' set to 'TLS/SSL Explicit encryption', 'Host name' set to 'ftps.usi.ch', and 'Port number' set to '21'. There are also fields for 'User name' (set to 'login') and 'Password' (masked with dots). Below these fields is an unchecked checkbox for 'Anonymous login'. At the bottom of the 'Session' area are 'Save' and 'Advanced...' buttons. At the bottom of the dialog box are four buttons: 'Tools', 'Manage', 'Login' (highlighted with a blue dashed border), and 'Close'. A 'Help' button is also present at the bottom right.

Session

File protocol: FTP Encryption: TLS/SSL Explicit encryption

Host name: ftps.usi.ch Port number: 21

User name: login Password: ●●●●●●
