How to connect to USI-Guest Wifi

Introduction
Establish a connection with wifi USI-Guest.

Minimum requirements
- Laptop
- Smartphone
- Tablet
- OS: macos, windows, linux, android, ios

Instruction
1. Select from your wifi connection list the name USI-Guest and press Connect.
2. It will open automatically a browser window to sign in (if not please open manually a page from your browser and try to surf).

3. If you have USI credentials please insert them.

If you don’t have USI credentials you can register and ask a guest access.

Note: Write the phone number as follows: 0041 7X XXX XX XX
5. Insert your USI credentials or your Guest credentials (that you received via SMS/Email).
6. Press Sign on and Continue.

7. Now you are online.
